

Show Me Around

Concept

Show me around is a website where **travelers** can hire **native people** as their **tour guide**.

Users

There are mainly two types of users-

1. Native people as tour guides
2. Travelers from around the world looking for local tour guides

Website Features

Common Features

- People can signup and create profiles both as a native and as a traveler.
- Natives and Travelers can post reviews for each other once the travel is done.
- Message features will be activated once the traveler hires the native. The message feature will disappear once the travel is done.
- Users will have a wallet which can be used by travelers for hiring a native, and natives can withdraw their earnings.

Traveler Features

- Look for native people all around the world and visit their profiles.

- Hire the native for specific dates. (Confirmation will be pending.)
- Travelers can create custom itineraries for their travel and get proposals from natives.
- Travelers can cancel the booking anytime with cancellation charges.

Native Features

- Natives can accept or reject the hiring proposal. The hiring will only be confirmed when native accepts the proposal.
- Natives can search the custom itineraries proposed by travelers.
- Native can bid on the custom itineraries proposed by the travelers.
- Native can cancel the booking anytime with cancellation charges.

Rules & Restrictions

Common

- No messaging allowed until the traveler hires a native and the native accepts the proposal.
- Only people who have posted the reviews can modify and change them.
- The proposal / hiring will be auto canceled within 24 hours if native doesn't approve it.

Native

- A native cannot search the profiles of the traveler.
- A native can only see a traveler profile with an active message in their inbox.
- A native can see the custom proposals for his/her city.
- Native can only withdraw the earnings after delivering the service.

Traveler

- A traveler cannot look at other traveler profiles.
- A traveler must have minimum balance before posting a custom itinerary.

User Journey

Native journey

SignUp > Create Native Profile > Check available custom proposals / Wait for a traveler to directly hire them > Bid on the proposal > Accept the proposal > Chat with the traveler on the message > Deliver service on the travel date > post review about the experience with traveler > encash the earnings.

Traveler Journey

SignUp > Create Traveler Profile > Search for a city / Create custom proposal > Check available native people / Make the proposal live and start receiving bids > Choose suitable native person > Hire the person > Chat with native > Meet native on travel date > post review about the experience with native.
